

**BIO:**

Growing up in Waco, TX, surviving three terms of documenting presidents, and trying to raise a daughter makes for an entertaining show that combines dynamic stage presence with an energetic delivery. Tim started doing stand-up after 8 years in the US Army. After a decade performing up and down the East coast, Tim is eager to transition from his professional day job in Washington and fall--head first--into the full-time world of entertainment.

*Washington Post*- “\_has turned winning over an audiences a science”

*Borderstan*- “His disarming approach takes the pressure off the performance and makes you feel like you’re just hanging out.”
